

A new Journal "IIE Transactions on Occupational Ergonomics and Human Factors" has just been launched. The first issue is expected in 2012.

Its aims and scope are: Ergonomics and Human Factors researchers and practitioners are concerned with understanding and improving human interactions in and with diverse systems. Through the development and application of knowledge regarding human capabilities and limitations, they seek to improve human-system performance and enhance human health and safety. While ergonomics and human factors research and application span diverse aspects of daily life, the IIE Transactions on Occupational Ergonomics & Human Factors (IIE TOEF) has a primary and fundamental emphasis on people at work.

More details can be found at: <http://www.tandf.co.uk/journals/UEHF> . Maury Nussbaum is the Managing Editor, Jim Potvin is an Associate Editor of the Physical Ergonomics stream and Richard Wells is on the Editorial Board.
